Ribbed Rubber Pads

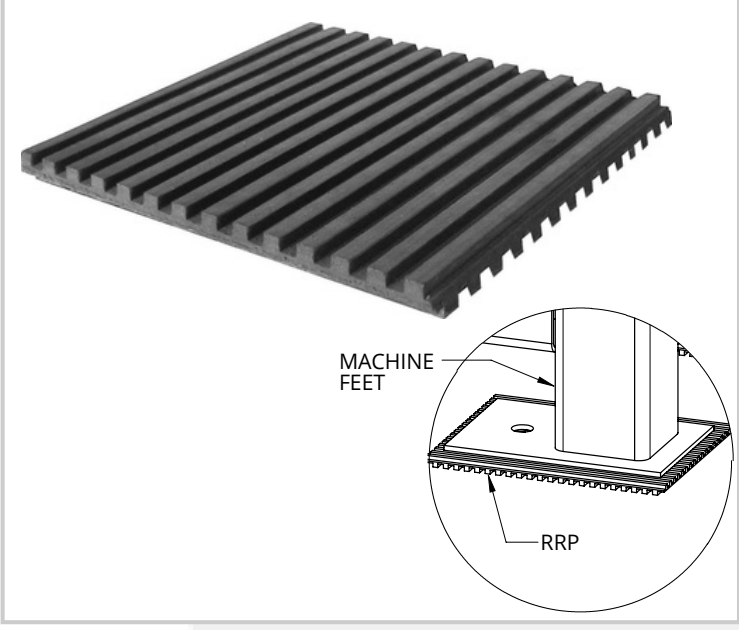

RIBBED RUBBER PAD

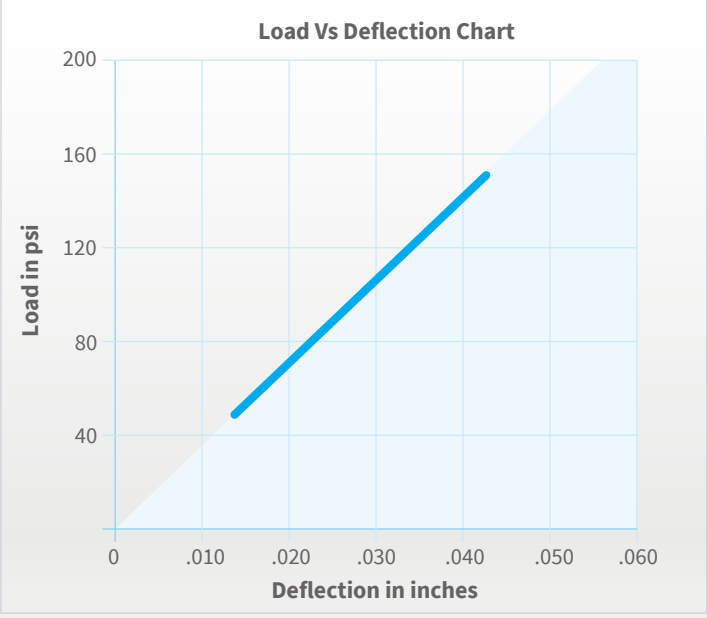

With highly effective material damping, a full rubber pad ensures impressive impact insulation. It is not only a valuable damper for machines, but for people and their surroundings too. This Pad is lightweight and its solid ribbed design adds the isolation and positive grip.

Available in sizes from **2”x2” to 18” x 18”** and thickness from **3/8” to 1”** load range **50 to 100 PSI**

RECOMMENDED FOR:

The RR Pad is suitable for applications where bolting is to be avoided and minor non-critical vibration conditions exist. It is also recommended for HVAC, motors, pumps, generators, air conditioning units, chillers, machine shop machines, etc.

FEATURES:

- Anti-skid surfaces through alternate high-low rib construction design
- Reduce noise and minor vibrations
- Can be reused when machines are relocated
- Can be moulded in custom sizes and materials subject to minimum quantity requirements
- No bolting required
- Simple field installation
